

PRODUCT DATA SHEET

BAR & CHAIN XTRASTIK

BAR & CHAIN XTRASTIK is a high-quality mineral oil-based product blended with extreme pressure additives and tackifiers.

The extreme pressure additives deliver protection to extend the life of the bar, chain and sprocket by providing a barrier against corrosion, moisture and premature wear on working surfaces.

It also contains rust and oxidation inhibitors providing added protection.

Tackifiers provide the "stringing" effect seen in the oil which prevents throw off from the chain caused by the centrifugal forces being generated in this type of equipment.

BAR & CHAIN XTRASTIK can be applied manually or in automatic lubrication systems of both petrol and electric chainsaws.

Other applications include general machinery such as chains, plain bearings, slides and small gear boxes.

PRODUCT BENEFITS:

- Suitable for electric and petrol chainsaws
- Tackifiers decrease throw off
- Extreme pressure additives reduce wear of components
- Ensures smooth and consistent cutting
- Blades remain sharper for longer periods
- Provides corrosion protection to bar and chain

TYPICAL PROPERTIES

Density @ 15°C	0.891
Viscosity @ 40°C (cSt)	150
Viscosity @ 100°C (cSt)	14.5
Viscosity Index	98
Pour Point (°C)	-18
